

Dear parents and carers,

## RE: Bring Your Own Device (BYOD) program and requirements

At Bulleen Heights School we are committed to providing our students with access to quality resources including appropriate technologies and digital learning tools. These resources allow our students to better engage with their learning, be enabled to participate, communicate and develop 21<sup>st</sup> century skills. A 1:1 learning program is a program where each student has access to a device to support communication and complete learning tasks. Our BYOD program in 2022 extends all new students, along with any student using Proloquo2Go/ Assistive Communication Aid.

The device requirements for this program are; iPad 8th Generation with 128GB storage. We also heavily recommend the Otterbox Defender or Griffin Survivor all-terrain Survivor case for all iPads to protect your investment. Devices could be purchased from the JB Hi-Fi Education link on our school's website. Use the school code **BHS2022** when logging on to enjoy discounted prices. Please note that after online purchases have been made, an email confirmation will be sent to you once the device is ready for collection. Devices are usually available 2-3 days once orders are received. JB Hi-Fi education prices are not available for purchases made in store or at the JB Hi-Fi online store.

To help us to better plan for the implementation of this program, please indicate your preference on the following page and return it to the school. Further information about this program, its intentions and how we propose to enhance your child's learning will be provided at the orientation sessions. Please feel free to contact the ICT Leading Teachers (Eva Chakrabarty or Mel Greaves) with any queries or concerns.

Bulleen Heights School

**Bulleen Heights School BYOD Portal**

On this portal you will find a range of education specific products at discounted prices ranging from tablets to laptops. These products have been specifically chosen as they are the most suitable products for the use of students within schools. Typically these products are non-retail products, meaning you won't find them in JB Hi-Fi stores. What sets them apart as education products is their stronger design and build (providing additional protection) as well as extra onsite (at school) warranties and accidental repair options.

All orders will be delivered to your nominated JB Hi-Fi store. You will receive both an email and an SMS notifying you once your order is available for collection.

**Questions?**

Feel free to visit our support page [here](#) to engage with our customer service team. Alternatively please call us on 1300 730 548 and select Option 1.

We accept:

**iBPAY**  **VISA** **SKYE**

BYOD  Apple iPad Program

Kind Regards,  
ICT Leadership Team

## Bring Your Own Device (BYOD) Survey of Parent Commitment

Please tick all the statements that apply to you and return it to school.

- I plan to purchase a new iPad that meets the school's specifications for my child for use in the BYOD program.
  - I will purchase this privately.
  - I would like to be contacted about the JB Hi-Fi or Apple Family purchasing program.
  - My child already has an appropriate device for use in the BYOD program.
  - I have the Proloquo2Go app installed.
  - I have other communication apps on the iPad (please list the apps below)
- 
- My child does not require an iPad for communication.
  - Purchasing a new device is not an option for me.
  - Please contact me about how my child can participate in a BYOD class.
